Supervisor: Kudzai Doma

Inspection date: 5th September 2025

Inspectors: Tadiwa S. Tapfumaneyi and Arnold Kunaka

Type of Inspection: New Premises

Key

Italics: *Shortcomings noted during inspection*

Bold: Issues noted during re-inspection and sub-headings.

Regular: The rest of the body of the inspection

1.0 Preamble

This was an inspection of new premises after receiving a complete and satisfactory application.

1.1 Suitability of Premises

The premises were generally in a clean and tidy condition with suitable and effective means of natural lighting and ventilation. Artificial lighting was provided for and adequate. Medicines shall be stored on white melamine shelves that are washable and protected from direct light, moisture, and excessive heat.

The dispensary working space was measured using MCAZ tape #038 and it measured approximately 11.1631m² which was sufficient to ensure effective and efficient flow of work. The whole area behind the serving counter is a dispensary. Medicines shall be stored safely out of reach of the public.

All working surfaces, cupboards and shelves were furnished with smooth, white, impervious, and washable material and maintained in a good state of repair.

The staff complement included the one (1) supervising pharmacist and one (1) dispensary assistant.

The toilet facilities were in proximity and in good order.

1.2 Equipment

The following was noted:

- a) There was a double stainless-steel sink with provisions for running cold and hot water.
- b) There were two (2) sets of counting trays for counting tablets and capsules.
- c) There were two (2) plastic measuring cylinders which were labelled as one (1), 100ml for external use and one (1), 50ml for internal use.
- d) There were two (2) sets of mortar and pestle which were well labelled.
- e) There was a functional pocket digital scale which was calibrated and due 26/08/2026
- f) A white defy single door refrigerator for storage of cold chain products was available with a digital thermometer which was calibrated and due 01/07/2026.

1.3 Dangerous Drugs

There was a fixed and double lockable cupboard for the storage of Dangerous Drugs (DD). The cupboard had a lock, with the keys to be kept by the supervising pharmacist. A bound and serialized register was available.

1.4 Cleanliness and Hygiene

The premises were generally clean and tidy, free from accumulated waste and vermin.

1.5 Prescription records

Dispenseware software shall be used for capturing prescriptions. There was a 16 gig flash drive for backup which was said will be done daily.

1.6 Reference books

The following texts were available on the premises on the day of the inspection:

1. BNF – BNF 83rd Edition (soft copy)
2. EDLIZ 2020 Edition (soft copy)
3. ART Guidelines 2017 (soft copy)

1.7 Legislation

Soft copies of all the current, relevant, and complete sets of statutes were presented as soft copies as there was provision for internet access of MCAZ registers.

1.8 Security

The front door had metal grills. There was also a security guard who will be at the premises.

1.9 Observations

For the observations the reference numbers given below in the right-hand column refer to the relevant references of the Medicines and Allied Substances Control Act, Medicines and Allied Substances Control Regulations and Good Dispensing or Good Wholesaling Guidelines.

Observations are classified into the categories “Critical”, “Major”, “Other (Minor)”

2.0 Critical observations are those observations that pose a great risk to the general public

2.1 Major observations are those observations which pose considerable risk to the public

2.2 Minor observations are those observations which pose minimal risk to the public but are still contraventions to the statutory instruments and departure from the guidelines.

<i>Nr</i>	<i>Observations</i>	<i>Ref</i>
	<i>Critical</i>
